

Sampling + Draining Valve Type PRB-HA

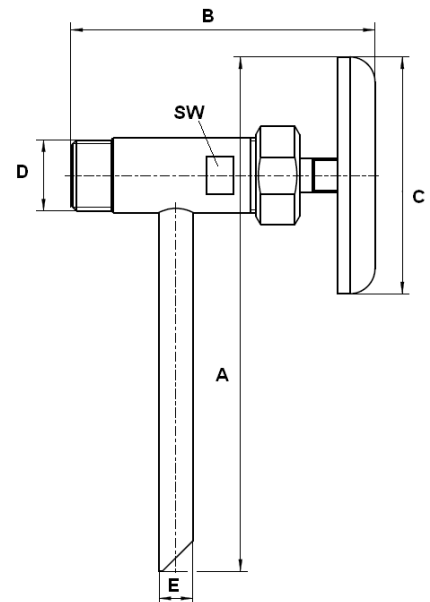

Connecting Port according	ISO228
Thread	G 3/8" - G 1/2"
nominal pressure	max. 16 bar
Operating max. Temperature	50 ° C

Designation	Material
Housing	stainless steel
flue pipe	stainless steel
needle	stainless steel
handwheel	aluminium coated

For Water sampling and draining in water plants, water treatment plants, reservoir-tanks, flammable version, applicable up to 16 bar.

Valvebody and flammable-pipe material stainless steel, operated by hand wheel easily mounting in sockets.
